

NRG: Mac & FileMaker Shipping Software

How do I find out what the version and build number is for my NRGship UPS solution?

For NRGship UPS

On the file menu, select NRGship > About NRGship. This window below will be displayed with the current version and build number (in parentheses).

For NRGship UPS Pro

On the file menu, select NRGship UPS Pro > About NRGship. This window below will be displayed with the current version and build number.

For NRGship UPS for FileMaker

On the file menu, select FileMaker Pro > About NRGship. This window below will be displayed with the current version and build number.
